

# Italian-made BIOCHEMISTRY REAGENTS

## ABOUT US

Sanymed, a laboratory analysis point of reference for 35+ years, has now become a Clinical Chemistry reagent manufacturer. This shift from exclusive commercial role to manufacturing has made Sanymed a reference for both end users and specialist resellers.

### HIGH QUALITY

Manufactured to strict quality standards, using the highest quality materials.

### ACCURACY

Biochemistry reagents are designed to provide accurate and precise results.

### CONSISTENCY

Manufactured by strict quality control procedures. This ensures consistent results from batch to batch.
